

MARSHFIELD
SCHOOL *of*
WEAVING

and Traditional Textile Arts

The Marshfield School of Weaving is the nation's foremost school for textile techniques used in early America and 18th century Britain. The school is situated in a 19th century barn overlooking the hills of Central Vermont, and students work exclusively with 18th and 19th century looms and other antique tools. Our curriculum now includes techniques from other cultures from around the world, and in addition to weaving we offer classes in spinning, dyeing, printing and knitting.

Some of our Featured Classes for 2018

(check our website for our full list of classes and workshops)
